I tried to register the Resizekit.ocx on the Delphi by double click the file Resizekit.ocx on Windows Installer. But it gives an error message "The ResizeKit.ocx file is not a valid file". ResizeKit for Delphi 5-10.2 Tokyo And I also tried to register ResizeKit.ocx to my c:\program

files\borland\delphi6\system\bin folder But it also gives an error message "Can not register ResizeKit.ocx to ini file." Any suggestion is appreciated. Thanx in advance. A: Cancelled the order. I used the zipped file resizekit.delphi5.zip Re-registered and installed ResizeKit.ocx file. Now, I can use the ResizeKit. A: I posted this as an answer in the link above. On Windows, ResizeKit is not registered to any folder at all, you have to register it to: C:\Program Files\Common Files\Borland Shared\Delphi

If you get an error message while registering, try typing c:\program files\common\borland shared\delphi in the "folder to register as" field. Friday, May 25, 2007 Mind Games: Breastfeeding I have some very special plans for this weekend. I have been thinking about babies and breasts for a while now...it's something I've wanted to blog about for a long time but until recently just hadn't found the right words. It's been a very emotional time for me because I had a miscarriage back in November and the baby that was lost is/was someone that I had really been excited about having a baby, now...it's a feeling I'm having right now...it's like a terrible loss and I'm feeling all warm fuzzy feelings towards my own breasts. I know they are not a bad thing...my nipples feel so good...but it's so hard to explain to myself why I'm feeling so strongly about a part of myself that I had made all of the plans for it. It's been a rough time and I'm having a hard time thinking about it without feeling sad...but the good news is...I
